

# TIMBER WOLF INFORMATION NETWORK

## *Interactive*

www.timberwolfinformation.org

### ■ ONLINE...

If you have been following the TWIN website for the past few years you probably have noticed a lot of changes in the way we provide wolf information to you throughout the site during the last few months. I am always looking for ways to improve the website and happened upon a web server program called Coldfusion. After some testing on the free server to see what it could do for us, I talk with our web host, Savvy.net, and they upgraded our web site to Coldfusion for no additional charge. Long story short, Coldfusion allows us to do everything from server out our multimedia gallery, guestbook, the entire catalog, and all the wolf population updates, just to name a few. Some of the changes may seem very small and inconspicuous to end user and some may be down right “cool” for the lack of another word. More importantly it gives me more time to develop new areas and features of the website such as our E-Newsletter and expanded catalog features since it is a huge time saver.

### ■ FOR INFORMATION

### ■ CATALOG...

If you have not been to the TWIN catalog lately, stop by next time you are surfing the web and see what is on sale. Many items over 20% off! In addition to the sales items, check out the many new features the catalog has to offer. This including “Look Inside” many of the adult and children level books were you can “turn the pages of the book” online.

[Look Inside]
